ACCOUNTANCY-

1 **Direction:** Read the following case study and answer the questions-

Sen and Shetty are two friends who have just attended the first class of accountancy. The friends were intrigued by the different branches of accounting and their widespread application. Sen personally liked the branch of accounting which fund flow statement and budgetary control is used a that branch helps in planning and controlling of operations As the concept of accounting was further explored, they began discussing the different users of accounting. Sen said that he finds it interesting that even the employees demand information relating to business.

Shetty said he finds more interesting the fact that even competitors want information on the relative strengths and weaknesses of the enterprise and for making comparisons Shetty further said that even accounting helps owners to compare one year's costs, expenses, and sales with those other years. However, they were quite shocked by the fact that the management-worker relations was not taken into consideration in the accounting. Meanwhile, Sen and Shetty had an argument at the end of the discussion. Sen was saying that accounting is an art whereas Shetty was saying that accounting is a Science. Their teacher came in and said something to them which made them stop the argument.
